Dear Parents and Students:

We appreciate your interest in the Tuscumbia Project Educational Talent Search Program (ETS). We hope that you will apply for the program so that you can take advantage of the services of ETS, a federally funded project of the U. S. Department of Education.

Educational Talent Search assists students in continuing their education beyond high school by providing college visits, workshops and seminars, such as study skills, career awareness, and college planning for the earlier grade levels; and ACT and Financial Aid workshops, career counseling and college information for the higher grade levels. Also, ETS provides assistance in applying for the financial aid necessary to attend a post-secondary institution.

The ETS program requires a completed application form signed by both student and parent (if student is under 18 to determine eligibility of the applicant).

Educational Talent Search offers these and other services to eligible participants at no charge. Please call, visit our office, or contact an ETS representative through your school guidance counselor if you need further assistance.

Again, thank you for your interest.

Sincerely,

Lanetta Phillips, Director
Educational Talent Search, Tuscumbia Project
