General Principles for Transfer of Credit

1. Coursework transferred or accepted for credit toward an undergraduate program must represent collegiate coursework relevant to the formal award with course content and level of instruction resulting in student competencies at least equivalent to those of students enrolled in the institution's own undergraduate formal award programs. In assessing and documenting equivalent learning and qualified faculty, the institution may use recognized guides which aid in the evaluation for credit. Such guides include those published by the American Council on Education, The American Association of Collegiate Registrars and Admissions Officers, and the National Association of Foreign Student Affairs.
2. Courses successfully completed in compliance with required standards at other regionally accredited postsecondary institutions will be accepted for transfer as potentially creditable toward graduation requirements.
3. A transfer student from a collegiate institution not accredited by the appropriate regional association may request an evaluation of transfer credits after completing 15 semester hours with a cumulative GPA of 2.0 or above at Northwest-Shoals Community College.
4. A transfer grade of "D" will be accepted only when the transfer student's cumulative transfer GPA is 2.0 or above. If the student has a cumulative transfer 2.0 or above, the grade of "D" will be accepted the same as that for native students.
5. Transfer credit for graduation will be granted based on the applicability of transfer courses to the requirements of the degree pursued. All transfer students must complete at least 25 percent (25%) of degree requirements at the College in order to receive a degree.
6. Credit may be extended based on a comprehensive evaluation of demonstrated and documented competencies and previous formal training.
7. Transfer credit for graduation will be granted based on the applicability of transfer courses to the requirements of the degree pursued. All transfer students must complete at least 25 percent (25%) of degree requirements at the College in order to receive a degree. Students who are admitted to the College on probation must complete 50 percent (50%) of degree requirements at the College in order to receive a degree.
